## Option A – PhD Minor in \_\_\_\_\_

Date: \_\_\_\_\_

### Industrial & Systems Engineering PhD Students

A student choosing the Option A Minor must select a [doctoral minor program other than ISyE](#) and must satisfy the specific requirements of the department offering the minor program. (Students can also use the Minor Department program Minor A form instead of this Minor A form).

Student Name (Last, First): \_\_\_\_\_

Campus ID: \_\_\_\_\_

Industrial Engineering PhD students must complete a minor requirement for their program by completing a cohesive group of courses outside the ISyE major to add breadth to their program. The courses should help students with their PhD research preparation in consultation with their advisor. Industrial Engineering requires a minimum of 9 credits in a single department / major field of study for the minor requirement. Once the Minor A program is decided, students must declare their minor doctoral program officially through the [Graduate School Add/Change Program Request System](#) to add the minor to their UW student record and submit this form (signed by their advisor below) to the minor department for approval and signature. Minor requirements must be completed by the end of the semester during which the PhD Preliminary Exam is taken. [Graduate School Breadth / Minor policy](#)

Students should submit a copy of signed minor form (along with their [PhD Prelim Exam request](#) form) in the semester of taking of the PhD Preliminary Exam. Please email completed form to the ISyE Graduate Coordinator – [prpeterson@wisc.edu](mailto:prpeterson@wisc.edu). A copy of the approved form will be saved to students [ISyE Box folder](#).

Please list course information for ISyE Minor taken / planning to take as they appear on [UW Madison transcript](#):

Course #	Course Title	Credits	Grade	Semester / Yr
